The "Proceedings" is mailed free to those people who request it and financially support its printing by contributions. There is no subscription rate. All donations, checks, money orders, contributions and bequests should be made to the Ministry of Universal Wisdom, Incorporated.

"PROCEEDINGS" are published by the Ministry of Universal Wisdom, Inc., at Yucca Valley, California. Printed in U.S.A. Business and Editorial offices: College Utility Building, George W. Van Tassel, Director; Sandra L. Boone, Secretary-Treasurer; G.W. Van Tassel, Editor. All rights, including translation, reserved. Manuscripts and photographs from our members or friends must be accompanied by a self-addressed, stamped envelope. As we do not employ solicitors nor representatives, please address all correspondence concerning "Proceedings", contributions, donations, bequests, etc., directly to:

THE MINISTRY OF UNIVERSAL WISDOM, INC.
P.O. Box 458, Yucca Valley, California, 92284 U.S.A.
FRONT COVER PICTURE

On the front page of this issue of the "Proceedings" is a picture of the segments of one of the two static electrical generators. This photograph is taken of this giant spinner looking from the top of the "Integratron." The segments are laid on the ground around a car to give a contrast of size.

These spinners are engineered six times stronger than the maximum stresses that will be on them. There is no metal in their construction. We are happy to report that the one in the picture, and number two, each composed of 16 segments, are out of the jig and completed. Many thanks to those of you who made this possible by financial support, and especially to our friends in Indiana. Now is the time to back up this effort with further gifts and help us finish this machine.

COOPERATION

Each of our readers can add their personal activity to the progress we are making here. If each reader sends in the names and addresses of relatives, or friends, we will be glad to send them one of our new brochures; explaining the Ministry of Universal Wisdom, the College, and the Integratron.

We need active associates who will express themselves with creative action. You can be directly responsible for adding to someone else's life, something of value that they didn't know was in existence before.

Anyone should be proud to be inspired with an action that is of benefit and lasting good to humanity in these grave days of insecurity.

We have tossed the torch of action to you — will you pick it up?
UNKNOWN SATELLITES

Verification of information we printed in the "Proceedings" years ago continues to be presented.

In the "San Francisco Chronicle" of Tuesday, November 1, 1966, the headline reads "Unknown Satellites". The article states, "Three satellites are in orbit about the Earth." It goes on to report that they were discovered in May and June by radar tracking, and have not been identified "with any launching or country of origin."

It is the first time the official catalogue "Satellite Situation Report" has listed "unknowns" among the many rocket bodies, satellites, and space debris, tracked by the United States. "Military officials argued against listing them in the 'Satellite Report' for fear flying saucer enthusiasts would seize upon the term 'unknown', and claim the three objects were evidence that the Earth had visitors from other worlds." Now why would the military officials think of anything like that?

The objections of the military officials (unnamed) were overcome, however, and the three "unknowns" were listed in the September 30th and October 15th report. The report is published by the National Aeronautics and Space Administration's Goddard Space Flight Center at Greenbelt, Md. There was no report on the size or weight of the objects.

In the "Proceedings" issue of March, 1955, on page 15, we printed a message from the space people received on August 14th, of 1953. In part it says "Our three sub-stations, now orbiting around your planet, are giving some of your scientists cause to wonder."

Following the printing of this information in the "Proceedings" of 1955, a team of La Paz and Tombough, two well known men in meteorology and astronomy, were sent out to find anything they could about anything orbiting the Earth. Later in the press it was reported that they had discovered three, what they called, "moonlets" in orbit around the Earth. It would appear that in our security between branches of our science that N.A.S.A. only rediscovered the same "moonlets" or "unknowns" that we knew about in 1953, and were called
"sub-stations", or supply and repair stations for the saucers.

We hope this article does not cause the military to want to withhold further information, because whoever overruled the military evidently knows things are coming out in the open in spite of their security.

How many items can we show in print in the "Proceedings", dated years before science verifies it? Three major discoveries by science, and many smaller events years before they were announced by the "discoverers."

THE BETTY AND BARNEY HILL CONTACT

Both Dr. Benjamin Simon and John G. Fuller are to be commended on their revelations in the Betty and Barney Hill case. Dr. Simon stated that "Some aspects of the experience are unanswered, and, perhaps, unanswerable at this time."

I am writing this article to verify the findings of Dr. Simon, and Betty and Barney Hill. Having been on board a spacecraft, on August the 21st in 1955, I was astounded to see information brought out under hypnosis that no one would reveal publicly while in a conscious state. Certain things that Barney Hill revealed under hypnosis I have held in secrecy since 1955. I withheld this information intentionally because it served as a positive way to verify anyone else's claim that they had been aboard a space ship. I can verify that Barney Hill was definitely on the craft he describes, in his physical body. Not astrally, not in a dream, but physically.

Several things that Barney and Betty Hill experienced and their after effects I can verify. I am not going to reveal these things yet, but they can be physically proven. I have not yet met the Hills, but hope to in the near future, because I can explain to them some of the things they do not yet understand. Their story physically verifies my contact - and mine can verify theirs.
PROFESSORS, PHENOMENA, AND PHOTOGRAPHS

Our hearts go out to Dr. Condon and his associates at the University of Colorado, who are going to investigate U.F.O.'s under an Air Force contract for $300,000.00. Since this announcement was made public in the press, making the U.F.O. phenomena respectable, "Look" magazine came out with a special no advertising issue. It sells for $1.00. This one issue must have netted the publishers several million dollars. Remember who wrote books being constantly accused of "making an easy buck"? Dell Publishers came out with another magazine on "Flying Saucers." "Saga", "Sir", "Movie Land", "Cavalier" and others, including "Science and Mechanics" nailed the respectable subject down also. Most of the articles were "old hat" that the private investigators knew of and read about years ago.

By granting this contract to the University of Colorado, the Air Force is getting the pressure off their back and making the public feel that now we will get some answers. The scientists are in a better position to understand the U.F.O. phenomena than the unqualified people the Air Force had heading their investigations. This doesn't mean that this paid investigation will reveal any more to the public than has been revealed before. The Air Force knew the answers to this subject in 1953. They are hiding behind the University of Colorado, and trying to make the public think that another investigation is necessary to get the answers.

I read a Sunday paper interview about a year ago, in which the reporter asked Major Hector Quintanilla why he was chosen to head the U.F.O. investigation, and he replied, "I don't know; I don't know anything about U.F.O.'s."

My prediction is, that with all due respect for the University of Colorado investigation, the public will not know any more than the Air Force wants them to know.

I have said many times that the Air Force, and the Navy, have been flying anti-gravity ships since the mid 1950's. These are the ones that leave holes in the ground when they land on their telescoping, hydraulic, retractable struts. The "secret science" has
copied the saucers that were taken to Wright Patterson Field in Dayton, Ohio in the early 1950's. I am of the opinion that these secretly built anti-gravity ships already have built a base on the back side of the Moon. We already have many of our missing scientists and industrialists working on the Moon.

The regular Air Force and Navy are not part of this "secret science." There are a few people in very high places in our regular military forces teamed up with a few people from several other nations that have been collected since World War Two at a secret base. They already have high frequency death rays and beams that will knock down aircraft, or missiles. What the mundane world doesn't know because of their apathetic "don't care" ignorance is astounding.

I believe a planet must ultimately arrive at a one-world government - and that government must be composed of scientists, not politicians. Our Senators and our Congressmen don't know about this "super secret science" either. The "secret science" organization is not a plot against humanity, it is a serious attempt to create a future for an ignorant, suicidal, civilization.

I firmly believe H.G. Wells' "Things To Come" will be as true in the future, as the other things he wrote about are true now. I further believe that Communism and the so-called "Free World" are not the only forces moving on the Earth to "take over the works". I believe there is a "secret science" waiting for the Communists and the Free World to collide, and when they waste each other away the "secret scientists" will step in and "big brother" what's left.

This explains missing billions of dollars. It explains antenna array and a large area without craters on the back side of the Moon; and it explains a shortage of pilots in the Air Force. I believe after a declaration of war, or a national emergency, that the military will announce and show on T.V. their own flying saucers. Then they will claim this was what people were seeing all the time. But don't be fooled!

This doesn't explain the big ship over Chicago in 1897, seen by the whole city population before we had an airplane, or an Air Force.
THE INTEGRATRON
A "TIME MACHINE"
FOR BASIC RESEARCH ON
REJUVENATION
ANTI-GRAVITY
TIME TRAVEL

DIRECTOR G.W. VAN TASSEL
RESIDENCE GIANT ROCK AIRPORT
In the "Look" magazine of March 21st, 1967, in the article "Flying Saucers", Major General E. Ben Le Bailly stated, "We are not experimenting with flying saucers, and we have no evidence that anybody else is, either."

This indicates, in his high rank in the Air Force, that he is not on the "inside" of the "secret science", and doesn't know that the Air Force Advanced Research is flying anti-gravity, electro-static ships.

It is apparent in many statements made over the years that each time a new man is put in charge of the Air Force U.F.O. investigation, that he investigates forward from the time he is appointed, and is not familiar with the information gathered by his predecessors. This relay of men in charge hides everything that was sifted out from each phase of the total investigation. Back in 1953 the Air Force man in charge of U.F.O. investigations for the West Coast told me he thought he was going to get courtmartialed because he turned in a positive report on data I had printed in 1952.

If ever there is a public, open, investigation to reveal the truth, which I doubt will ever occur, I can subpoena military and civil people who knew the score fifteen years ago.

The assinine part of the fact that many national magazines are printing "flying saucer" material is, that the "Johnnie come lately" authors of most of the articles don't know anything about the subject, and are writing opinions based on ignorant assumptions. These desk-jockies are getting paid for their articles.

The only thing that will ultimately reveal the truth is: 1. You can't hide something that flies, and 2. There are a lot of smart people outside of security, who are working out the pieces of this jigsaw puzzle. Already in my small circle of acquaintances, I know of several anti-gravity researches that work. Static-electrical, self-generating motors, and magnetic phenomena outside of the government are making rapid strides because these people are revealing their findings and mutually advancing together.

These independent researchers are nailing down working equipment that cannot be denied. Professors are only qualified to analyze that which they have studied.
Government can only place security on that which is theirs. The people "upstairs" can see the whole picture. Phenomena occurs in spite of security.

There are literally thousands of photographs of U.F.O.'s. What is more phenomenal is the ability of the people in the space ships to cause our photographs to reveal, or hide, many things as a result of their advanced knowledge to cause refraction, reflection, bend light, diffuse light, and control many things through rays and beams.

In this picture on pages eight and nine I am standing in bright sunlight which casts shadows from the bushes, the sign beside me, and the dome in the background. All of these shadows point to the Northeast, as the Sun was in the Southwest. Now observe the lighted area before me and behind me on the ground – brighter than the Sun on the ground in the rest of the picture. This light is coming from overhead and casts my shadow almost 60° off from the other shadows – and my shadow is on the ground where the Sun is shining.

You see the Biblical prophecy has nailed it down too. There is another force besides the three on the Earth. The interplanetary hosts will be the ones who finally clean up the mess. These are the ones who have been responsible for the origin of every religion on the Earth; the visitors, angels, or spacepeople – whatever you wish to call them. Professors, photographs, and phenomena prove nothing. God fulfills the destiny of planets, not humans.

EMPTY WORDS, OR AN OPEN HEART

Religions throughout history have propounded God in one manner or another. Most of this profession of Deity has been through the organized churches. Today the basic philosophy of "feed my poor and comfort the sick" has been taken out of the churches and now functions through government Medicare, or War on Poverty programs.

The churches still profess God, perform marriages, bury the dead, conduct socials, and play bingo, building bigger and better edifices and organizations to propagate themselves.
The Ministry of Universal Wisdom, Incorporated, is here to minister unto others. Through its scientific branch, The College of Universal Wisdom, we are putting God's eternal laws of magnetism, electricity, and ions into practical application for the good of all humanity.

These natural laws provide all manner of comfort to do the work for humankind today. We do not have a church building for people to collect in to hear words. Our building is a machine to apply God's scientific laws to alleviate the greatest scourge the human race faces - ageing flesh of the physical body. Our principle of operation is ten times simpler than color television. We are three-quarters finished with this machine. We have volunteer Doctors who want to serve on our Medical Board of Advisors; to conduct "before" and "after" checks of people in our test program. Our scientific associates have not charged a cent for their time and talent to assist this project.

We do look to all of our interested reader associates to put their hand to the wheel and keep us rolling. We are appealing at this time for your help. If each of our readers sent in ten dollars, it would push us very close to the finish line on this machine.

When it is operating, another year or two will be required for adjustments and testing. Let us all extend ourselves at this time in a drive to prevent ageing in our youthful people, and charge our elderly people with the energy of their younger years.

This is not a dream. It is not another church; it is a method to a fuller, longer, energetic life for everybody. Let one generation live to correct its own mistakes!
THE ENDLESS RESURRECTION

Easter in the Christian world is symbolic of the resurrection of Christ. Down through history, long before the time of Jesus, the ancient pagan rituals observed a period of resurrection. Usually they conducted some kind of fertility rites, or sex orgy at the time.

Sex was once the basic religious philosophy in phallic worship. The re-birth, or propagation of the species, is continuous in all living things.

In biology and science the same thing is observed in the microscopic world; a cyclic period of reproduction relative to each germ, cell, or protoplasm.

Humanity in its Easter bonnet and new frock exhibition of its self importance, reproduces in fabrics and foam rubber the demand to be noticed each year.

Nativity, in its expression of the resurrection, demonstrated the re-birth cycles annually with offspring to propagate itself.

Today Easter is another of the economic world's ways of giving itself a periodic "shot in the arm" to carry it over to the next religious holiday.

The Christ, called Jesus, was trying to demonstrate to an ignorant people that life was continued even after death, so called. His return, after three days, was a physical manifestation to prove what he came on the Earth to accomplish.

People today spend endless hours, if they are going on a trip, to prepare for their journey, or vacation. Yet in their short life span here they make almost no preparation spiritually to be equipped for the great journey into the hereafter. Those who leave their preparation up to the priest, or preacher, are going to find out when they pass through the open door, labeled death, that these emissaries of the church didn't have any connections with anybody beyond here.

The spirit confined in the mobile coffin of the carcass here, in the ever constricting pressure of ageing, will arrive at the hereafter with no luggage, and greatly confused.
If this life is manifested in reality by spiritual effort to conform to the Golden Rule, one can be welcomed at the hereafter station in state. Some of the moneyloving, war mongers are going to be met by many of the cannon fodder kids who found out what it was all about when they got out of here. It won't be pleasant for these "hawks".

Some individuals can resurrect the physical body here, by saturating it with spiritual effort in daily meditation, and exhibit youth in their aged body up until their dying day.

The distorted revision of the Bible, in our time, and the ecumenical changing of rules of the church to conform to Caesar's modern requirements is further evidence of boot licking in high places.

Each spring the resurrection takes place in nature about Easter time, when all things manifest new life in blossoms, fruit and progeny. In the human level each Easter time finds us a little further away from the Creative Spirit, and a little closer to the destructive, mammonistic, chaotic end.

There is no resurrection in the economic level. Only deterioration by greed is manifested. From gold to silver, to paper, to credit cards, each stage stealing more from the value of stability, is leading to an economic collapse.

The resurrection of peace is only empty words from the mouths of hypocrites in authority, who increase the destructive stockpile of armaments by catering to the military-industrial complex for puppet positions in political office. There are no more diplomats trying to solve the problems of international disagreement; only horse trader appointees each trying to get the best of a bargain for their economic masters.

Resurrection of the spirit comes only through the Golden Rule effort. If race treated race like they want to be treated, there would be no racial troubles, in spite of the perpetual agitation by the agents of dissention.

Resurrection does not come from the mouth of the clergy - it comes from the love in the heart. Human
relations cannot be solved by physical sounds registered from mouths to ears. These are only empty noises that end with their beginning, and cannot be registered in many languages and dialects.

Laws cannot resurrect order out of insurrection. Laws only provide a whip to punish the violator. Legislatures do not consider whether their new laws conform to Nature or God.

Humanity looking at itself reflected, cannot wash its face by scrubbing the image in the mirror. Neither can it raise itself to spiritual resurrection in the flesh by submitting to the ideology that might makes right.

The spirit eternal, submerged in the flesh in this physical environment, is crying for resurrection now, here, to express its ability to bring an end to the madness on this beautiful planet. It does not want to live here only to be rejected and wait until that day of physical death so that it can be free.

Let the spirit of Creation be resurrected now, daily, in every act, by rejecting the world of hate, war, and greed.

Give and ye shall receive. Effort alone produces results and the reward is in satisfaction which no other feeling can duplicate.

The Easter Lily cries for Humanity to Resurrect itself!

PRE-OBSERVATIONS

This coming Summer will likely produce record breaking heat waves.

This year, 1967, holds another stock market drop for stockholders.

Mt. Shasta in Northern California may be about to blow its top and become an active volcano again.
