## DESOLATION, DESPERATION, AND DECEIT

"And what will ye do in the day of visitation, and in the desolation which shall come from far? To whom will ye flee for help? And where will ye leave your glory?" Isaiah 10:3.

The day of visitation is here now. Many visitors not of this Earth have walked among the people. Their ships have been seen visually, photographed, tracked on radar, and chased by jets.

Authority has hidden this great event in secrecy and fear, because it will destroy their economic god Mammon - and they have no control over this condition.

The desolation that will come from far should be evidenced by the build-up of atomic powers, 100 Megaton bombs, fleets, armies, and air forces.

"To whom will ye flee for help?"

The authorities of civil defense one year cry "evacuation is the only hope". Now they cry "the best protection is in individual bomb shelters."

This may not be the best way, but they changed their tune when their economic god said "there is no profit in evacuation. Let us demand permits that cost the people money and let us make a code and we can make sure no-one can save themselves without our permission."

It is hard to understand anyone building a bomb shelter for their family and themselves. Will people never learn that selfishness only ends in self destruction? Individual bomb shelters are "dead end rat traps".

When the desolation comes you and your loved ones will rush into your hole in the ground for safety from the invisible, intangible radiation of fallout. After a few hours, or days, your neighbors who didn't have the financial means, or foresight to build their own bomb shelters will get hungry, scared and desperate.

Just a few, or many, of your hungry neighbors will say "Joe has food in his bomb shelter" - and there you are trapped in the ground. These "friends" will get your food either directly by forced entry, or plug up your air and ventilation pipes. Your shelter that made money for the Mammonites proves to be your death trap or grave.

Your only safe place is with many others and it won't cost you anything. Of course the civil defense authorities will never suggest this to you because there is no profit in it.

Go to the nearest storm drain entry and get into the big concrete pipes that run under the street. This network of storm drains runs clear out of the city and you could go through them for miles with manholes available at intervals. In this event your entire expenditure would be for a canteen to carry water, a flashlight and extra batteries, and some concentrated food.

"For the leaders of this people cause them to err; and they that are led of them are destroyed." Isaiah 9:16.

When the people of wealth hold the highest offices of the governments of the world, how can they think any other way than they do? They arrived at positions of authority through Mammon. Will Satan condemn Satan? Will the wealthy leaders in authority be concerned more with what the poor people cry for, or with what their drinking buddies of association and class ask for?

Desolation is now knocking at the door. Desperation will result from the survival instinct. Deceit has been prevalent throughout the "dog eat dog" history of nations subject to the rule of Mammon (money).

Your only hope to escape personal danger is to "get out from among them" as the Bible says.

If your survival instinct has any foresight you will be getting into action now.

## MISERABLES, "MASTERS", AND MISSILES

"Behold the day, behold, it is come: the morning is gone forth; the rod hath blossomed, pride hath budded.

Violence is risen up into a rod of wickedness: none of them shall remain, nor of their multitude, nor of any of theirs: neither shall there be wailing for them." Ezekiel 7:10-11.

Chapter seven of the book of Ezekiel, in the Bible, tells of "The Final Desolation of Israel."

Israel of course being the United States, the modern Jer-U-S-A-lem. Israel is also the name given to Jacob.

"The rod hath blossomed" literally describes a missile exploding. Ironically some of the first tests at White Sands, New Mexico, were called the "Blossom" series.

"Violence is risen up" certainly describes a missile with a nuclear war head taking off from a launching site. The long, round, shape of a missile also implies "a rod of wickedness", when used for warfare.

The multitudes are the miserables who always suffer the ravages of war.

The "Masters of deceit" are the few who meet in secret and plot with each other the place, time, and extremities of the engineered conflict.

The present plot calls for a war between the World's two most populated nations, India and China. Of course Russia will supply China and the Western Nations will supply India. This will make more wealth for the wealthy, put the millions of unemployed back to work, permit a large increase in taxes, and eliminate millions of people who only face death by starvation anyway.

The tremendous investment in military goods by both the East and the West requires a war to protect the investment, by use and replacement, or economic collapse will be the result.

Governments cannot function with the unemployed not paying taxes, or starving people creating internal revolution. Unemployment is a threat to the economy, and revolution is a threat to the "Masters" politically.

Of course a war can get out of control of the "Masters" and result in both internal revolution, on both sides, and World economic collapse.

Ezekiel 7:18 describes the result of atomic war. Read it! The loss of hair, baldness, is a known result of radiation and fallout. "Baldness shall be upon all their heads". There goes the hair spray businesses and beauty parlors!

Ezekiel 7:19 says "they shall cast their silver in the streets, and their gold shall be removed." This indicates that the economic system will collapse anyway.

The seventh chapter of Ezekiel in its entirety denotes prophetic results even now at the twelfth hour and describes the destruction of the United States, or Israel.

Chapter 16 of Ezekiel describes the United States from the naked Indians until even now.

Chapter 38 of Ezekiel prophecies about Russia and her allies. Gog is Georgia-Russia, Magog is China. Verse 11 and 12 describe the United States as "the desolate places that are now inhabited". Verses 15, 16 and 17 tell of the attack upon Israel - Jacob - the United States.

"Thou shalt come from thy place out of the North parts".

"Thou shalt come up against my people of Israel, as a cloud to cover the land;....."

Even the atomic cloud cover is described.

Verse 22 describes the atomic holocaust as a "rain (radioactive) and great hailstone, fire, and brimstone."

Coming "out of the North Parts", naturally the shortest route for missiles from Russia is over the North Pole.

Chapter 39 of Ezekiel tells what will happen to Gog (Russia) and Magog (China).

The miserables have little to say, and do less, because they are confused. Constant contradictory statements by the "masters" keep them in confusion. The "masters" meet, shake hands, drink to each other's health, then return to their own countries and start calling each other names!

Diplomats no longer sit around a table to arrive at a solution to the nation's problems. They are all "horse traders". Each trying to get more concessions for "their side."

Berlin is a false front to keep the eyes of the people focused on one hand, while the "masters" perpetrate some plot with the other. This keeps the fear policy alive, so the people will be content with more and more proclamations of necessity in the name of "peace" or "defense". Three times the number of atomic bombs necessary to eliminate every living thing on the Earth already exist in stockpiles, still the making of more and bigger and worse types goes on so they can kill you six times as dead!

The ignorance in authority can be seen on T.V. when shifty-eyed senators, congressmen, and appointed authorities go on the air and hem and haw, stumbling for words that say nothing so they will not injure the prestige of their "Masters" or commit themselves without due permission.

The papers say gamblers beat the Treasury Department out of billions of dollars annually in taxes. Foreign Aid billions flow like water. Communist countries like Yugoslavia buy jets from the United States, and Red China buys from England. Some World! What have we arrived at? Looks like a state of total confusion to me. Government departments are so large they need departments within the department to run things.

When everything gets confused enough it looks like no one will know who can say a simple yes or no to anything. Authority will be submerged in the magnitude of departments so large the top man will be the last one to find out what went on in his own department.

It's going to be something to live through, to see the unqualified amoebas with legs trying to get out from under the political structure when it collapses of its own weight.

The "Masters" think they have everything figured out. The Miserables haven't anything figured out, and the Missiles don't think about one or the other.

Now we have anti-missiles to shoot down the oncoming missiles, and so has Russia. So now we will have to make anti-anti-missiles to shoot down the anti-missiles before they can shoot down the missiles. Endless cycles of blowing untold money.

Nearly everyone now being employed either directly or indirectly by the government, either through contracts, or by the civil service system constitutes a welfare state. The last step before total socialism!

Next thing you know, you will have to have a credit card to get a credit card. Some businesses are now advertizing that you don't need a credit card, just sign your name for merchandise.

If you go in anywhere to buy for cash, they look at you like you're a freak.

Our forefathers are probably looking on and wondering how people ever made such a mess of the good start they had made.

The United Nations, so called, has moved into Africa "to set up a condition where the people can decide things for themselves." I thought they had done just that for hundreds of years. Apparently the "Masters" mean you must decide things for yourselves that agree with what the U.N. decides for you.

If we could make a movie exhibiting the actions of the nations of the Earth for the last thirty years and show it to the people on other planets, they would probably label it Improbable Science Fiction, or Comedy.

Latest news as of December 12, 1961, says the United Nations is broke and about to go bankrupt. They say they are \$106,000,000.00 in debt!

If the United States assumes any part of this debt we should all "blow our stacks".

They have laws, and departments of local, state and federal government to stop businesses before they get too far in debt, but they have no limits on how far the "masters" can go into debt. The National debt is now approximately \$800,000,000,000.00 (eight hundred billion dollars) and the tax-payers pay nine billion dollars interest annually on this debt.

Eichman is being tried for a "war crime" by a nation that didn't exist when the crime was committed. This is to set a precedent, so anyone can be kidnapped, taken anywhere, anytime and tried for anything even after the statute of limitations. Now Russia wants to try a German ex-General for his "war crimes". I'm surprised that Japan hasn't demanded to try Truman for the atomic bombs that were dropped on 240,000 women and children in World War Two. Under justice all war is a crime and all leaders are therefore guilty, not just the losers.

This article could go on indefinitely commenting on events, conditions, and their relation to the Bible records of the same things happening before in another civilization.

One sure thing you can look for is that Nature-God-The Infinite Mind will react to all destructive, human generated conditions.

Man was given dominion over all things, but nowhere does it say he was given dominion over his fellow man, yet everything on the Earth is a system of "masters" over miserables, and now all are subject to the missiles created by the "masters".

The justice of Nature makes the "masters" subject to the same amount of radiation as the multitudes of miserables.

"Masters" and miserables are all humans in different positions in the society of species.

Missiles have now become the impersonal, impartial master of all!

## JONAH AND THE "WHALE"

The Lord told Jonah to go and preach against the wickedness of the city of Nineveh. This contact with a "lord" scared Jonah so much that he tried to get away and hide, like some people have done these present days when they were contacted by superior beings, or "lords", from the heavens.

In the process of escaping by ship to Tarshish, the superstitious sailors tossed Jonah overboard, because they assumed he had angered the Lord and was directly responsible for the terrible storm the ship was then experiencing.

"Now the Lord had prepared a great fish to swallow up Jonah." Jonah 1:17.

To the ignorant people who recorded this event, and who knew nothing of submarines or cylindrical-shaped space ships that could go beneath the water, as well as through space, this was indeed a miracle.

They knew then, as we know now, that no man could survive in the belly of a "great fish" or whale for three days and three nights.

"And the Lord spake unto the fish, and it vomited out Jonah upon the dry land." Jonah 2:10.

Naturally in the time this was recorded there were no mechanized forms of transportation. The people of that time knew nothing of space, that man could fly, or any of the many amazing things we have today. Their only concept of anything that existed in the water that could swallow a man was a "great fish", or a whale.

You will notice in Jonah 1:17 that "the Lord had prepared a great fish." They could have recognized that this "great fish" was manufactured like a ship, and wasn't anything like a fish except that it went in and under the water. The point is - they credited the Lord with preparing it.

The record says Jonah was released out of it on dry land. Whales do not travel on dry land, although they have been washed up on the beaches by violent storms.

Here again is evidence of still another Lord taking someone aboard a ship for several days and then letting them out unharmed. Jonah was instructed what to do and say in Nineveh; also as some people have received instructions aboard these same space ships today.

When you recognize that the hierarchy of the space people from other planets hold positions that are titled God, Lord God, and Lords, you begin to get some sense out of the many references in the Bible to these many Lords in many different places, and at various times.

Jonah's lord, Moses' lord, the "lord of the harvest", and the Lord Jesus, were all different Lords at different times.

The Bible says there are many Lords and many Gods.

But only One Creator.

#### AN APPEAL

The Ministry of Universal Wisdom, Inc., needs a good transportation car.

If any of our readers have an extra car that is not being used too much, we would appreciate it being given to the Ministry for needed transportation.

Thanks! .

*E. W. Van Tassel*  
Presiding Director

#### APOLOGY

We wish to apologize to our readers for the delay in getting out this issue of the "Proceedings". This was due to extra work, the Convention, Directors having babies, and the need to do other necessary things to live with the Winter conditions coming on.

## FEDERAL TAX EXEMPTION

The Ministry of Universal Wisdom, Inc., is still patiently waiting for the authorities of the Treasury Department in Washington, D.C., to grant us federal tax exemption.

It has been nearly three years since our application was filed. Since then we have changed a clause in our Articles of Incorporation, at their request. We have attended a hearing with their representatives, and have conformed to all of their legal requirements that has made it possible for other organizations to get tax exemption.

Your Director spent two days with the Treasury Department auditor going over our books. He expressed complete satisfaction with them.

Can it be that Washington is so immersed in dealing with lobbyists and the influence of money that they cannot give a positive decision to a small, beneficent, non-profit Corporation, without understanding why we have worked for years for other people's benefit without personal profit?

The Presiding Director and his wife gave 10 acres of their own land with a well on it, valued at around \$15,000.00, to the College of Universal Wisdom before the incorporation as the Ministry of Universal Wisdom.

Is the destructive influence so great in Washington that they are afraid of an organization that is trying to help others?

Are the authorities in the Treasury Department waiting for some other advisors to say O.K.?

The United States Constitution specifically states the position of federal government relative to religion.

Because our religious beliefs incorporates the scientific proof of many unseen things does not make us a boogy-man, or subversive.

Certainly having a Catholic President isn't the answer, because we waited two years under a non-Catholic President, although the Catholic Church is tax exempt.

The taxation of gifts of money given for a specific purpose to a legal, non-profit corporation that is already State tax exempt, is collecting income tax twice on the same money, and interfering with our religious beliefs and their scientific application.

This is not a heartless criticism of a Department of our government. They have their problems too, but we would like a legal, just, decision on our application for tax exemption without interpreting the laws so as to twist them.

#### GREETINGS

The Ministry of Universal Wisdom, Inc., wishes to extend to our many readers a very Merry Christmas and - progressive New Year's Greetings.

We wish also to thank the ones who have supported us financially in our research and work to give humanity a practical, working, benefit from the religious interpretations we are bringing into a scientific reality.

#### DECEMBER - JANUARY ISSUE

This issue is the first "Proceedings" of the Ninth Year of printing this pamphlet.

We wish to congratulate you all for keeping it going, and thank you.

## THE INTEGRATRON

Work is progressing slowly at the "big dome". The making of jigs and templates is consuming much time, as accurate layout work is essential in construction of the large electro-static generator, and the large coil windings.

Protective measures against the elements also requires extensive maintenance by painting and sealing of all parts of this big, non-metallic machine.

The "big dome" will be closed to all visitors after January 1, 1962; except for any special tours at any given time.

This is necessary to stop interference with work, loss of time, and because running, dangerous, equipment will take up the room; not because we are hiding anything from you.

The large coil winding in the lower floor should be finished by that time.

We will of course keep our readers informed of all our progress.

One reader has contributed a Diesel, 210 cubic foot per minute, air compressor, weighing five tons; which will furnish compressed air for the turbine drive of electrostatic and magnetic equipment.

We most gratefully acknowledge this gift.

Those of our readers who cannot take a physical part in the construction of the Integratron may take part indirectly by the continued contribution of financial assistance in the form of monetary gifts, so essential to the completion of this project.

Make all checks or money-orders payable to:

## THE SATELLITIUM OF 1962

Astronomical and astrological magazines are making much of the coming conjunctions of the planets in February of 1962.

The sequence is as follows:

Jan.	23	- Saturn in conjunction with Sun.				
	27	- Venus	"	"	"	"
Feb.	5	- New Moon	"	"Eclipse	"	"
	6	- Mercury	"	"	"	"
	7	- Mars	"	"	"	Saturn.
	9	- Jupiter	"	"	"	Sun.
	12	- Mercury	"	"	"	Mars.

Five planets in conjunction on one side of their orbits around the Sun have never before been recorded in astronomical history. Twice before three planets have been recorded.

From the Earth there will actually be seven from an astrological point of view, for the astrologers consider the Sun and Moon as planets.

The seven in Aquarius are Saturn, Jupiter, Mars, Venus, the Sun, Mercury, and the Moon. An eclipse of the Sun by the Moon adds interest.

Astrologers throughout the world have predicted all kinds of calamities, from economic collapse to World War III starting as a "hot" war. Earthquakes, axis tilts, mass saucer landings, etc., are also predicted.

From my own point of view I think some of all of the above list, and other things, will occur.

I foresee the death of a top political person whose last name begins with "K" in 1962.

I believe before we are into the Summer of 1962 we will see records broken all over the world for low temperatures, snows, rains, floods, etc.

With the staggering National debt, the U.N. broke, the taxpayers broke, or living to the very limit of their credit, I expect by mid-April of 1962 that many taxpayers will not pay their taxes.

Last November the U.S. had to borrow money from the Swiss Banks to stabilize the dollar.

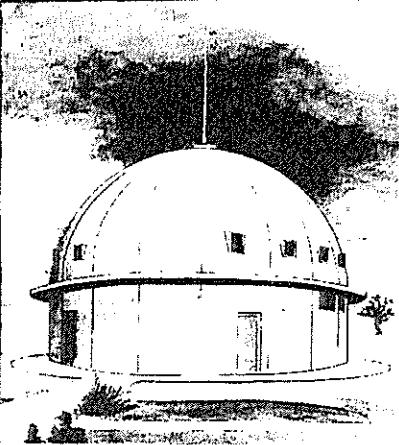

The eclipse ends on the India, China border. This most likely will be the "hot" war spot.

Also Russia is going to have to butter China's palm, or take the chance of China changing sides. This is known as political blackmail, and is being used by many of the small countries to keep foreign aid coming from the United States.

Whatever happens as an effect of this conjunction will be due to cause stress on the people, our atmosphere, and the Earth's crust.

Definitely the economic structure of the United States will be effected, with every citizen feeling the after effects.

Watch and wait; 1962 promises to be one of the most unusual years in history.
