The PROCEEDINGS OF THE COLLEGE OF UNIVERSAL WISDOM are financed by contributions from its readers. The PROCEEDINGS is mailed free, monthly, to those who request it, and support it.

Being most urgent that the Research Laboratory Building (page 16) be completed and the Experimental Unit put in operation at the earliest date possible, the Directors of the College of Universal Wisdom at Yucca Valley, California, earnestly solicit its patrons and friends to contribute generously to the Building Fund, and to offer suggestions as to contacts that might be made with possible donors.

PROCEEDINGS are published monthly by the College of Universal Wisdom at Yucca Valley, California. Printed in U.S.A. Business and Editorial offices: Van Tassel Ranch, Yucca Valley, California. George W. Van Tassel, Director; Darlene Jean Wing, Secretary-Treasurer; G.W. Van Tassel, Editor. Copyright, 1957, by George Van Tassel. All rights, including translation, reserved. Manuscripts and photographs from our members or friends, must be accompanied by a self-addressed stamped envelope. As we do not employ solicitors nor representatives, please address all correspondence concerning Proceedings, contributions, donations, bequests, etc., directly to the

COLLEGE OF UNIVERSAL WISDOM
P.O. Box 419, Yucca Valley, California

SPACECRAFT CONVENTION

We had determined not to hold any more Spacecraft Conventions at Giant Rock Airport because of the amount of work and expense involved.

Hundreds of letters have been pouring in from all over the country wanting to know the date of this year's Convention. So, under the pressure of so many who enjoy this event we have decided that the majority will rule.

We have set the date for the fifth convention for Memorial Day weekend.

Memorial Day falls on a Friday, May the 30th. Saturday, May 31st and Sunday, June 1st, will be the convention dates. We know this three day weekend will find hundreds of our friends arriving early to take advantage of the extra day.

The public is welcome as usual, so invite your friends and spread the word.

Bring camping equipment and plenty of blankets. You can always take them off if it is warm, but you can't put them on if you don't bring them.

The end of May is normally perfect weather, both day and night.

NO gasoline, or oil, will be on sale at Giant Rock at the time of the convention, so fill your tanks. Motels are available in Twentynine Palms, Joshua Tree, and Yucca Valley, if reserved in advance.

We cannot reserve them for you, so write, or phone to the Chambers of Commerce of the above towns.

As long as we are doing it again, let's make this the biggest convention of them all.

Be seeing you here.

G. W. Van Tassel

COLLEGE PROGRESS

The San Bernardino Planning Commission and the Department of Building and Safety, have issued a permit for the construction of a large research laboratory on the site of the College of Universal Wisdom.

The building is of unusual nature in the respect that it contains no metal in its construction. All methods of connection in the structure have been designed by the architects and engineers to eliminate nails, bolts, screws, or metal fastenings. The building will become the framework, and shelter, for apparatus designed to set up magnetic and electrical vortices, which in turn will establish control of a "time" field. The "time" field in turn will permit the "absorption" of energy into matter. This is a creative principle almost opposite to atomic energy, which converts matter into energy. There are no radiation effects from the "time" field principle as there are from use of atomic principles.

The building will be the third one erected on the College property. An observatory, and shop containing public sanitary facilities are already completed.

The research laboratory will be nearly four stories high and is forty-two feet in diameter. The second floor is ten feet from the ground and the structure from there up is a dome with a twenty-two foot radius. Circling the outside of the building at the second story level will be a fifty foot diameter "disk" which will rotate around the building to ground out all static electricity within the building and provide a division line to stabilize the Earth's crust magnetic currents.

The building will cost approximately \$30,000.00. It will be constructed by Los Angeles contractors familiar with non-metallic construction. The foundation has been poured by the Hi Desert Transitmix Company.

WATER AGAIN!

In a number of the reports of spacecraft landings it was stated by witnesses that the space people were observed taking water aboard their craft.

I had just gone to bed one night in November, 1957, when my wife, who was still up, called me to see a large egg-shaped ball of flame about three miles away near Goat Mountain.

I dove out of bed and ran to the window, but too late to see it. A few minutes later however, my wife and I heard a low, pulsating hum from overhead. On checking in the morning with another man who lives on the place, I found that he had heard it too.

Our oldest daughter phoned us from our ranch, adjoining the Giant Rock Airport property, in the morning and told us the big water tank must be empty, as she couldn't get any water from the faucet in her kitchen.

We drove over to investigate and pump some water out of the well to fill the tank. We had just pumped the tank full the day before. The tank holds 5300 gallons, and we know that it takes four hours to empty it through a two inch pipe.

We found the tank empty and no indications of a leak in either the tank or the water pipes.

We had filled our tank truck only once after we had pumped the tank full. The tank truck holds less than 1000 gallons.

With the normal use at the ranch we could therefore account for about 1300 gallons of the missing water. 4000 gallons were still missing.

There is only a trap door in the top of the tank for access to coat the inside with water-proof emulsion. The tank is located inside of a fence and within 500 feet from the ranch house. There is no place except within 30 feet of the house to fill a tank truck. There are no tank trucks used in the desert that hold over 1500 gallons. Assuming that someone tanked the

water out, they would have had to pump it out with a hose through the trap door in the top of our tank. They would have had to make at least three trips to get 4000 gallons and there were no tire tracks near the tank.

The water tank is in the open and easily visible from the ranch house. Any kind of a truck, or pumping engine would have had to run at least two hours to pump up that much water. My daughter's husband is a light sleeper and would have heard any unusual noises.

So much for our missing water. On hiring a man across the road to do some grading for the large research building, he told me they had lost 1400 gallons of water from their tank four nights before we lost ours.

The neighbor's tank has an open top and sits on a tower. It is filled by their windmill and they know it was full; because friends who were visiting them remarked that they had better feather the windmill to stop it from pumping, because the water was running over the top.

Their property is fenced and they have five dogs. The dogs never barked.

The fact that their tank was emptied without their dogs barking proves that no mere mortal took their water. It reminds me of the night the spacecraft landed here at Giant Rock. None of our three dogs barked on that night, either.

We have at least nine witnesses and our neighbors have at least four to the truth of these facts.

You can draw your own conclusions. All we are going to do is keep the tanks full in case our friends from upstairs need some more good, desert water.

BIBLE INTERPRETATIONS

"For where two or three are gathered together in my name, there am I in the midst of them."

St. Matthew 18-20.

The controversy has often arisen about what Jesus really meant by some of the things he said. In St. Matthew 16-13, Jesus said "Whom do men say that I the Son of man am?" Here he is asking his disciples what people say of him, and calls himself the Son of man.

People of the Earth who comprise the humanity of this planet usually assume that they are the race of MAN. Once one can establish in their mind that MAN and human are two different kinds of people, it is not too difficult to understand the Bible.

Humans are the descendants of the original sin, of crossed blood between the race of MAN and the animal race called "EVE".

The race of MAN are the true descendants of the pure blooded creation of the race that was given dominion over all things, in the original creation on the sixth day. Many times in the New Testament Jesus is referred to as the "Son of Man".

"For as the lightning cometh out of the East, and shineth even unto the West; so shall also the coming of the Son of Man be." St. Matthew 24-27.

The lightning comes out of the skies. The Son of MAN are the space people now being observed in their craft in our atmosphere.

The race of MAN includes male and female people, and the race of humans also is composed of males and females. The misunderstanding comes in calling the male humans, man.

In the sixth day of creation, Genesis 1-26, "And God said, let us make man in our image, after our likeness: and let them have dominion over the fish of the sea, and over the fowl of the air, and over the cattle, and over all the earth, and over every creeping thing that creepeth upon the earth."

God said MAN, not human. God said them meaning male and female, as so stated in Genesis 1-27.

Man's dominion was not given only on the Earth, but over the Earth, meaning above this planet.

St. Matthew 25-13 says, "Watch therefore, for ye know neither the day nor the hour wherein the Son of MAN cometh."

Jesus also said, "And if a kingdom be divided against itself, that kingdom cannot stand." St. Mark 3-24.

The world today is composed of kingdoms of humanity, and it is therefore divided against itself. The only ones who can suffer as a result of this division are we the humans who occupy the Earth. The vast majority of humanity does not like, or condone this division. Only the minority of economic authority who profit by it like it. But as Jesus said in St. Mark 3-23, "How can Satan cast out Satan."

This planet could be a virtual utopia in a few years if the know-how of science could be converted to benevolent things. The world should be governed by scientists, with laws based on cause and effect, instead of being governed by politicians and military men with a false economy by destruction as the standard.

"For the Son of MAN is as a man taking a far journey, who left his house, and gave authority to his servants, and to every man his work, and commanded the porter to watch." St. Mark 13-34.

It is time for the servants to take the authority that was given to them. 1960 will see the last election to be held in America. Air travel has "shrunk" the Earth to a few hours travel around its surface. It is time to consider a United States of Humanity on the Earth. No persons should be taxed for food, clothing, or shelter, to maintain a monstrous economy based upon the manufacture of weapons of war.

The time is upon us when the division of humans will reveal whether they follow the laws of MAN, or the beast of Mammon. The appointed representatives of State slam the door in the face of summit talks on

disarmament; while the summit leaders proclaim they want peace, and all the time the machinery is grinding out super destructive weapons to support a dying economy.

It is a good thing that dominion over the Earth was given to the race of MAN, and not the beastial humans who live by blood. You can be grateful that the space people (MAN), our guardians, are on watch.

"For as many as are led by the spirit of God, they are the sons of God." Romans 8-14.

This indicates whether you are on the side of the MAN in you, or the human of you. Actions are the only evidence of faith. You can agree with this article, or disagree with it, but "faith without works is dead".

"Then cometh the end, when he shall have delivered up the kingdom to God, even the Father; when he shall have put down all rule and all authority and power." I Corinthians 15-24.

This is what the Sons of God shall accomplish with the cooperation of the race of Man, our friends in the spacecraft. I look for the destructive agents of Satan to merge their weapons of war to attempt to ward off the Sons of Man. This will be Armageddon. The result is plainly stated above. I can preach to you, but you must make your own decision.

FRONT PAGE PICTURES

The top picture on the front page of this issue of the "Proceedings", is a reproduction of a photograph taken from the ground, of the sidewalk and curb of the new research laboratory.

The footing and piers are poured, and required fourteen yards of concrete. The sidewalk and curb required another fourteen yards of concrete.

In the background are the utilities building, shop, and the observatory.

(continued on page 15)

ACCEPTED IGNORANCE

The latest sadistic demonstration of the illiterates happened about January 22nd, in Los Angeles, California. A young fellow, supposedly mentally unbalanced, stood on the cornice of a 14 story building threatening to jump. A large crowd stood in the street below chanting, "Jump, Jump, Jump you coward".

The crowd didn't know it, but the very expression of their verbal shouting, in a negative polarity utterance, was what made the fellow decide not to jump.

The intelligentsia of officialdom said the fellow changed his mind because of something his girl friend said to him.

Neither the sadists, nor the intelligentsia know the workings of Universal Laws.

The young fellow was taken to a psychiatrist to be examined as to his sanity. The crowd dispersed and went to their homes. It should have been the other way around. The sadists in the street should have been confined. They were the ones who didn't know what they were doing. The man that was going to jump fully knew what he was doing.

It's an odd thing how a wrong can become a right if the majority commit the wrong. The sadists in the crowd are all mentally capable of injuring others, as they only wanted to see blood spilled; anyone else's blood but their own.

The fellow on the ledge was only mentally capable of injuring himself. So the unbalanced majority returned to the comforts of a sadistic society, and the fellow who violated their law by not splattering himself at their feet in self sacrifice to their desires, went to the booby hatch.

These sadistic mentalities are the same in society as the mad men who are expanding the defunct economy by the making of destructive weapons of mass annihilation.

An ex-Navy man was committed to an institution by his family, in Oakland, California, because he tipped a taxi driver with a \$5000.00 check. The check was good. The man had the money in the bank and it was his to give away if he wanted to. BUT the act of giving is condemned unless you give to one of the recognized "mooching" organizations. Again the mad rule of the many ignorant says, "He has violated our law."

I don't think this man was any crazier than the shirt-tail riders who pay \$100.00 a plate at some political rally. But that is accepted by the many as a contribution to a recognized parasite.

Recently the recognized officials of the A-bomb tests in Nevada raved in the papers about how they had confined the radioactivity in an underground atomic test. How little they know of reactions! Now they are planning a bigger and deeper test.

This matter has reached a state of complete idiocy. In Nevada they are creating shocks in the Earth's crust that can be registered on seismographs hundreds of miles away, while only about 90 miles away is Hoover (Boulder) Dam. This dam has water pressure on the upstream side of about 600 pounds to the square inch, amounting to millions of pounds of pressure over its underwater area.

This dam was engineered to wedge itself into the walls of the Colorado Canyon, and withstand more pressure than the water could ever exert on it with Lake Mead full behind it. But the rock strata it is built into was not engineered by man.

The further explosion of underground atomic tests in the dam area is sheer stupidity. If Hoover Dam ever goes it will take out the Davis and Parker Dams downriver from it, and completely flood the vast Imperial Valley. This would wipe out Indio and many other towns and drown tens of thousands of people. It would also make an inland sea over 100 miles long out of the rich, agricultural, Imperial Valley.

Reactions to the many atomic bomb tests are only beginning to be felt.

An earthquake in Western Mongolia caused mountains to disappear and rivers to change their courses. Many were killed, and a crack in the Earth twenty yards wide opened for over 150 miles. This was on December 4th of 1957. The Mongolian location is laterally opposite on the Earth to the Nevada test site.

Experience is the only teacher. The educated ignorance of recognized officialdom will soon prove it has to get worse before it can get better.

SPIRIT, FLESH, AND BLOOD

"Only be sure that thou eat not the blood: for the blood is the life; and thou mayest not eat the life with the flesh." Deuteronomy 12-23.

Blood is the transmission fluid of the fleshly body, the same as the oil in a fluid drive is the transmission medium between the power of the engine and the drive of the wheels.

In the physical body the flesh cannot function except by the power of spirit, transmitting through the blood. You have all experienced this at some time or other when an arm, or foot, "went to sleep" due to lack of circulation. At such a time, the portion of the body that is "asleep" loses its feeling, becomes numb, or feels dead. This is because the power of spirit is not being transmitted to the flesh.

When the fluid (blood) of a car battery is not there the battery also goes dead. The chemical elements composing the plates are the same, but the transmission fluid is not present.

The electro-chemical (physical) body of humans, or animals, is powered by the spirit. Spirit is a universal power of an electrical nature. Every individual being of man, human, or animal nature having blood, will be of a different vibration.

The "twelve tribes" mentioned in the Bible were the result of the separation of people into twelve different bands of like vibrations. Blood in individuals is as different as their fingerprints.

The left side of the body, being the negative polarity side, is the receptive side of spirit power. Negative polarity things have a roundness to them, and positive polarity bodies have the sharper, angular forms. All bodies, arms, legs, tree trunks, etc., of a negative polarity predominance will be rounded.

The round shaped heart is in the negative polarity side (left) of the body. The angular edged liver is in the positive polarity or right side of the body.

All heart and liver diseases are a result of polarity malfunctions in the blood.

All red cells are biconcave discs. All white blood cells range from spherical to kidney shaped.

Blood is the life of the physical body because it carries not only oxygen and food to the flesh, and wastes and gases from the flesh; but it is the assimilator and transmitter of spirit power.

Spirit is a universal essence of infinite existence. Some people are capable of absorbing more spirit from the vast ocean of spirit than other people.

If the spirit is strong the flesh can't be weak. The spirit is the universal foundation permeating all things. It is silent and motionless. One revives and restores the physical body by rest (lessening of motion) and sleep (silence).

Physical reproduction can pass on characteristics of the flesh and blood, but each individual body must assimilate its own spirit essence.

One whose spirit foundation is strong cannot get sick.

Medical science has done marvels with the chemical body of man, but until the electrical nature of people is understood as well, the healing of people will remain in the field of effects, instead of causes.

The magnetic, animal attraction of polarity opposites for each other, termed sex, is not love.

In the original basis of languages, Love meant the "Living source of vital energy".

The living source of vital energy is spirit. Spirit is assimilated by people in accordance to the ratio by which they conform to the immutable laws of nature; not how they live according to the requirements of human laws.

Blood being the carrier of life from spirit to the flesh, it follows that the purity of spirit be carried by clean, healthy, blood in order for a person to be healthy.

The flesh can only be as healthy as the blood, and the blood can only be as healthy as the spirit is abundantly assimilated.

The human body is a battery of electro-chemical nature. You can give the physical body a charge through the blood by activating it with the spirit.

Spirit has substance the same as various odors. The spirit has been weighed on sensitive scales when certain people have died. The scales showed a loss in weight of from two to three ounces.

Spirit has also been photographed. In this particular case beetles were used. They were gassed and at the moment of death a vaporous-looking beetle left the body of the physical chemical beetle and drifted off out of the motion-picture camera scope.

The definition of blood is "life-giving body fluid". In order for the blood to "give" life it must get it from the spirit.

The spirit is the positive polarity, electrical emitting body. Soul in the basic tongue meant "negative polarity source of your life". Being of negative polarity, the Soul, or blood, attracts spirit according to its capacity.

The human body is a dual plate, physical chemical battery, separated in the center fore and aft into symmetrical parts.

The intestines form a coil in the abdomen, of counterclockwise winding in negative polarity people, and clockwise in positive polarity people.

Flesh is the filler of the electrical spirit body. Flesh is assimilated in this level of life from the Earth, and in departing from this negative polarity

level is given back to the Earth in one way or another. The fluid Soul force allows the electrical spirit body to be free as soon as the blood ceases to be fluid.

Your Soul can only be as pure and vital as its ability to absorb and carry the Spirit throughout the flesh.

This disease ridden planet is the result of putting the cart before the horse. The physical body can only be as strong as the spiritual foundation that supports it.

Humans, with their closed minds, are standing on feet of clay because they have put materialistic things before spiritual knowledge.

The dogmatic administration of "blind belief" religions is the cause of the world's illnesses, wars, and troubles today. You can only really help yourself and others by knowing God, or life, or the nature of causes, and stop trying to correct effects.

You can only assimilate as much spirit as you have the capacity to hold. You can increase your capacity for spirit by using it. You can't put more in a bucket that is already full, but you can enlarge the holding capacity of the bucket.

(continued from page 9)

The bottom picture was taken from the air at an altitude of 300 feet above the ground. The new building footing is in the center of the picture, with the white roofed utilities building to the left and trees on our ranch at the far left edge of the picture.

The concrete for the footing, sidewalk and curb cost \$481.00. The floor cannot be poured until the superstructure is erected.

This activity, in actual construction, terminates a two year period of engineering and architectural work on the blueprints which cost \$1,500.00.

These pictures are proof that we are making progress.
