The picture on the front page of this issue of the "Proceedings" was taken by Reserve Deputy Sheriff Franz Ackerman, of San Bernardino County Sheriff's office, at the Giant Rock Airport Spacecraft Convention held May 23 and 24 this year.

Deputy Ackerman took this picture with a standard Land Polaroid camera at 12:10 P.M. on Sunday, May 24. The crowd had just been dismissed for lunch and were walking in many directions to their cars, trailers, and the concession stands.

Outstanding points in regard to this event are as follows:
1. Deputy Ackerman did not see the phenomena he photographed.
2. Deputy Ackerman was totally unfamiliar with the Polaroid camera he was using, and had made several previous shots in which there was too much light on the pictures. He had gradually cut down on the light with the camera adjustments, and this was the first picture that came out clear.
3. Deputy Ackerman was a rank skeptic of flying saucer pictures and believed all photographs of saucers were faked. After displaying his picture he remarked, "with the simple click of the trigger of my camera I became one of you."
4. Thinking the picture he had taken was a flook, Franz took another picture three minutes later, and thereby came up with a beautiful contrast to the picture of the phenomena. Both pictures are being reproduced on pages 6 and 7 so that our readers can see the contrast and have an extra copy of the front page picture to show their friends.
5. Not one of the thousands of people reported seeing the phenomena visually except two boys on top of the mountain beside Giant Rock, who said "it wasn't there over ten seconds". They reported it came straight down and then left horizontally to the ground in a South-easterly direction so fast they could hardly follow it. As they were looking down on it, they had a better background to see the ship than anyone below would have had if they had looked up.
6. Note in the pictures the dark shadow on the white rock to the right of Giant Rock is completely eliminated by the cone-shaped "beam" from the ship's field ionization of the air which proves that the ship was between the camera and the two rocks, not just something like a cloud in the distance.

7. We believe Deputy Ackerman was mentally inspired by the people in the craft for the following reasons.
   a. He did not see what he photographed.
   b. He stated definitely that no one present told him to take the picture.
   c. The fact that the picture was taken by an officer of the law covering the Convention, giving authority to the picture, and taken with a Polaroid camera which developed the picture in the camera, and was pulled out of the camera in the presence of several witnesses, including another Deputy Sheriff. These things indicate too many coincidental events to happen in less than ten seconds without some intelligence timing it.

8. If this picture were of a distinctly detailed craft, such as a model that could have been sailed off the mountain over Giant Rock, it could be questioned because this could have been easily done. To fake the ionization of the field around the ship, the elimination of the shadow on the white rock, and the cone-shaped effect, with no negative to fake, makes this picture more authentic than any other picture that could have been taken.

You will observe also that if this were a picture of an ordinary cloud taken at noon with the Sun directly overhead, as can be seen by the shadows, that the Sun would light the top of the cloud. The ionization by the field here lights the bottom of the vapor.

Deputy Ackerman was very cooperative and held his pictures up for people to see while hundreds filed by in front of him. We are also reproducing a picture of Franz holding his photographs.

The fact that this craft appeared here further authenticates the fact that the space people knew there was a Convention being held here at Giant Rock Airport in their honor.
We do not claim any credit for this event, neither did we "call them down" to perform for the crowd and neither did anyone else in attendance at the Convention. Real space people walking the Earth in their various assignments do not claim they are from somewhere else.

Those desiring glossy photo reprints of these two pictures may obtain them by writing to Franz Ackerman, 5750 Adobe Road, Twentynine Palms, California. Please inclose $1.00 to cover the postage and reproductions, as Franz is already out his own money to some extent in supplying copies of his pictures to the many people who requested them from him here at the Convention.

We feel deeply honored by this appearance and are grateful to Deputy Franz Ackerman for his fine pictures and cooperation.

CONVENTION ECHOES

The Sixth Annual Spacecraft Convention was the largest held so far. Approximately 11,000 people attended over the two days of May 23 and 24.

The same speakers of previous years spoke of their contacts. One new man spoke briefly to the crowd a few minutes before Deputy Ackerman took his now famous pictures.

This man's name is being withheld at his request, but I can tell you this....that he had a contact with a Venusian scout ship in 1932, along with 4 other people and another contact in 1958.

He has been working on a communication principle the space people gave him, since his first contact. Your director and his assistant have witnessed demonstrations of this equipment. It produces phenomenal results in the television field.

Over 250 trailers were parked at Giant Rock Airport during the convention and everyone attending reported it was the best convention so far.

We hope our expanding research program will not interfere with having another convention next year.
Much has happened here at the Ministry that has made it necessary to delay the printing of this issue of the "Proceedings".

Along with the Sixth Annual Spacecraft Convention, the Franz Ackerman pictures, and the after-Convention crowds of people taking much of our time, we also had a heat wave that exceeded all records for temperature and humidity.

The following things have also kept us busy, we are very happy to say.

As you will recall from a past issue of the "Proceedings", we made the remark that "the donor still had our money in his possession" in regards to building our large regenerator laboratory.

We are happy to report to our thousands of readers that this is no longer true. On May 4, a deposit was made in our Building Fund bank account of $30,000.00 by a man who has closely investigated our operations for nearly five years. In addition, he also deposited $10,000.00 in the Ministry of Universal Wisdom bank account so we would have funds to operate on. This man has requested that his name be withheld from publication, but I can tell you he certainly "broke the ice".

After many days of discussion with several contractors in regard to construction of this unique building, it was unanimously voted by our Board of Directors that a contract be signed to complete the building with Pacific Roof Structures, of 1616 S. Greenwood Ave., Montebello, California, on June 15, 1959.

Prefabrication of the building is underway and erection of the 16 arches 38 feet in height is expected to be accomplished before the end of August.

We are most grateful for this contribution and all the other donations so generously given by our many devoted readers.
It will please our readers to also hear that after the many vilifications by skeptics and character assassins, that a routine investigation by the State of California Attorney General's Office, conducted to investigate all new corporations, has resulted in the Ministry of Universal Wisdom being granted California Tax Exemption by the California Franchise Tax Board, as of May 1, 1959.

This exempts California residents from any tax on donations they make to the Ministry of Universal Wisdom from their taxable net income.

Federal Tax Exemption is now pending on applications made to the United States Government offices in Washington, D.C.

Needless to say, these many activities have greatly increased our work here. We are sorry we have had to let many letters go unanswered, as our mail has almost run away with us.

We ask our many readers to try to understand any delays, and to continue their wonderful support.

CORRECTION

We wish to correct the name of the crater on the moon which we published in the April-May, 1959 issue of the "Proceedings". We were given the "Lassel Crater" as the name of the location.

Further investigation on our part and close comparison with a drawing by astronomer H.P. Wilkins indicates that the photograph reproduced on the cover of the April-May, 1959, "Proceedings" was the Gassendi Crater, not the Lassel Crater.
CONVERSATIONS, CLOUDS AND CONVEYANCES

"AND THEN SHALL THEY SEE THE SON OF MAN COMING IN A CLOUD WITH POWER AND GREAT GLORY." (Matt. 24:30).

It has been established scientifically that clouds are formed by the assimilation of moisture by dust particles, by the electric charge of molecules, however small, or by both conditions. A cloud is a mass of vapor which can become charged beyond its capacity electrically, due to friction of air currents, and in this event will discharge the excess charge as lightning.

Reference is made in the Bible to clouds from which voices came, and a cloud which preceded the children of Israel in their march through the wilderness...and when the cloud stopped the people set up camp. Also a cloud that came down on the top of Mount Sinai into which Moses entered and then returned with instructions for his people and the two stone tablets.

Clouds are real only while they exist as an accumulation of moisture, but they form out of an invisible atmosphere and quite often dissipate back into it, so their vapor becomes unseen once again.

Clouds however, do not speak, manifest stone tablets, or stop and start in their travel according to schedule.

The space ships in our atmosphere often manifest a cloud around themselves as a camouflage. This is done by the field generated around the ship which causes the atmosphere to ionize.

The people operating these craft are culturally and scientifically so far ahead of our society of humanity that no comparison can be made.

When a Lord handed Moses the stone tablets on which he had engraved the space people's basic laws, this Lord was a physical being. Spooks, or spirits (electrical bodies) do not hand material objects to people. By the same token, when a voice came from a cloud somebody had to be in the cloud to speak, or transmit mentally, or speak over a public address system.
The sooner people realize that Gods, Lords and Lord Gods are titles of physical people of the race of Man, the sooner religion will become a reality and understandable.

The Creator (Infinite Mind) should not be called God, Lord God, or Lord. Fifty-two times in the New Testament Jesus is called the son of Man. According to his own words, he asked Peter, "Who do these people say I the son of Man am?"

When a voice came out of a cloud as related in St. Mark 9:7 and said, "This is my beloved Son" the voice came from a Man (not human) who was the mate of Mary and the physical father of Jesus, who was on a spacecraft that had caused the above mentioned cloud. His title was God.

Gods, Lord Gods and Lords are equivalent to our Generals, Colonels, and Lieutenants. There are more Lords among the race of Man than there are Lieutenants among the race of humans.

When these space people manifested by stepping out of their craft and performing amazing feats before the ancient Greeks, the Greek people originated the now famous Greek mythology.

Every religion on the face of the Earth is based on instructions and appearances of our space friends throughout the past, coming down from the heavens (skies).

All of these appearances in the past, when people on the Earth could not fly in the skies as they do today, made the events supernatural, or not scientifically explainable at that time.

The American Indians' legends tell of people coming out of a hole in the sky. Their legends also tell of these sky people in "fire canoes" bringing them potatoes and corn and showing them how to plant and cultivate them.

During the time of chariot travel the people called the spacecraft "flaming chariots". And in the time when no Earthly conveyance existed, and horses were the most used form of transportation, the spacecraft were called "white horses", "red horses", etc., according to the color of the force field around the ships.
If you can understand that the original creation of the race of Man is as different from humans as humans are from the lower animals, then you can begin to understand why the people of those times deified these people who came out of the skies, who spoke from clouds, and performed miracles.

The destructive animal nature of humans on the Earth, who constantly criticise, condemn, judge, and attempt to dominate each other, does not want to accept the probability that there are beings far superior to themselves.

The sequence of Creator, Man, Human, Animals, Vegetables and Minerals is the order of things.

When the Lord opened the mouth of the ass and the donkey spoke to Balaam in Numbers 22:21-35, it was not understood how this was done at that time. Today we would know that the Lord of this event was a good ventriloquist and Balaam's ass was his "Charley McCarthy".

Religion is reality. Truth can only set one free when one can open their mind to include all things.

In the story of Lot, Genesis 19:1-5, Lot had two angels meet him. He offered to wash their feet, feed them, and keep them in his house over night. When they finally accepted and were in his house, the curious people gathered around and wanted to know where the two men were.

This story proves that angels were physical beings. You don't wash the feet of spirits or spooks, and feed them. The people inquiring of Lot about these angels also called them men, so they too recognized the two angels as physical beings.

People in physical environments must have physical characteristics. The angels in the Bible are the race of Man; physical beings far superior to humans, and are present now in greater numbers than they were in the Biblical days.
Unidentified Flying Objects is the name given by the authorities in our government to the interplanetary spacecraft seen in our atmosphere.

The propaganda experts who originated this identification as "U.F.O.s" were not stupid. They purposely established this name so they could lie to the public and have a loophole to back out of if the public ever called their bluff.

By calling the spacecraft U.F.O.s the hush-hush authority can lie to the people by denying they exist as Unidentified Flying Objects. The brainwashed public then assumes that no spacecraft exist. The authorities are not denying that the objects exist, they are denying that any unidentified objects exist.

This is because authority knows the objects are interplanetary and they know they are spacecraft. This makes them identified objects. Authority has never denied that identified flying objects exist.

There is only one object in misleading the people. There is no fear of panic among the people by authority. The people have been "Buck Rogered" and "Flash Gordoned" for so many years they could accept any radical change of concept over night.

The sole reason for hiding the visitations from the space people is because of money. There are several fatal results that would chain react throughout the world as a result of people finding out that a superior race of beings exist throughout all space.

No one pays God to revolve the Earth on its axis, or to orbit it around the Sun. No oil, or gasoline, or man-made power is required for spacecraft to use these same principles. Therefore no profit could be made from a fuelless principle to power our Earth vehicles.

Since the sale of power supplies is the foundation of the money system, the sudden introduction, or hint of a free energy principle as fact would knock the economics foundation out from under the money structure.
This would leave the authorities of money control over governments, business, and churchianity without any more authority.

Stocks in utilities would become worthless overnight. Paper money wouldn't be worth a can of beans for a whole car load of it. The hierarchy of the churches would have no more control of the masses through fear. The principles of minority control over the multitudes would end.

The top moneyed people of this country from which the World economy is controlled already know the money system is going to collapse. That is why they are putting all of their money assets into tangible real property.

The signs are here. Look around you. In every major city and town new buildings are being built by the oil companies, finance companies, banks, and church authorities. This is going on while other buildings are for sale, lease, or rent.

The top financial people know this tangible property will still be theirs to control after the money is worthless. The inevitable crash will occur within the next two years, possibly this year. Then the "first shall be last and the last shall be first". Chaos will result because the multitudes have allowed themselves to become robots and slaves of the money system.

Anyone who has even an iota of foresight can see this shadow fast approaching.

When the government authorities of finance have to ask for an extension of time in order to pay the money authorities their interest on the national debt, the twelfth hour is here.

Slavery by credit, politics by lying propaganda, military threats to keep our people paying ever increasing taxes, and the blind leading the blind in the churches under the guise of religion are about to end. Human dominion over his fellow humans is terminating. The Law must be fulfilled. The pendulum is about to swing the other way. The green paper foundation is collapsing. This is evidenced by authority just up and deciding to print another $9,000,000,000.00 and make an entry in a phoney book, backed by nothing.
You can see why this scared authority does not want the multitudes to know they have caused this chaos by their greed.

As we have said many times before...the space ships will still be sighted by airline and military pilots and grounded Earthlings in spite of the attempt to hide this great event by "authorities".

The unwashed multitude can thank God the spacecraft are there, because the race of Man once more is going to have to save the race of humans from their own destructive creations.
